

17th Annual Mastering Scientific Evidence in DWI/DUI Cases

New Orleans, Louisiana : April 8-10, 2010 : 18.0 CLE, 2.50 Ethics

Course Directors

- Troy McKinney, Houston
- Gary Trichter, Houston
- Mimi Coffey, Fort Worth

Overview

The 17th Annual Mastering Scientific Evidence in DWI/DUI Cases includes many of the top DWI/DUI experts and lawyers in the country. The seminar was founded by William C. "Bubba" Head, one of the deans of DWI defense law, in Atlanta, Georgia, in 1994. Texas Criminal Defense Lawyers Association and the National College for DUI Defense (NCDD) have continued the tradition of excellence for which this seminar has become known. It has been, and remains, the premier DWI/DUI Scientific Evidence seminar in the country.

The knowledge conveyed by the presentations and experiences of the experts and lawyers included in this program, most of whom are available throughout the seminar to answer questions and discuss issues, is essential to any lawyer practicing DWI/DUI defense anywhere in the United States. Included in the program are longer presentations, which allow the speakers to impart in-depth knowledge—and not just hit the high points. The breath test machine breakout sessions provide lawyers throughout the country exposure to breath test machines and defense issues relevant to their jurisdictions. All the major machines are expected to be at the seminar for attendees to examine.

The culmination of the program is a mock trial, defended by an NCDD Regent, from a real-life case scenario that was tried in front of a real-life jury. The mock trial will be a breath test case. It was chosen because of its similarity to many of the breath test cases routinely handled in the courts in this country. The approach to the defense of this case will be usable across a wide spectrum of DWI breath test cases. It has no single "sexy" issue, but instead is designed to be more similar to the day-in and day-out breath tests cases seen by most DWI practitioners.
