Presentation: Unify Your Discovery: Citation-Driven AI, Purpose-Built AI for Defense

Presenter: Chance Shiflett, Rev Field CTO

Date: Tuesday, January 27, 2026

Time: 1:00 pm – 2:00 pm

CLE: 0, 0 ethics

Overview: Defense teams juggle mountains of discovery - police reports, PDFs, medical files, transcripts, plus hours of video and audio. In this demo, Rev's Field CTO Chance Shiflett will show how Rev brings all of it into one platform, making it easier to navigate, review, and analyze at scale. He'll walk through the platform's citation-first AI, which highlights contradictions, timelines, statements, and critical facts - always tied back to the exact page, timestamp, or paragraph. Combined with Rev's industry-leading legal ASR and strict privacy protections, you'll see how teams can review evidence up to 94% faster and deliver better outcomes for clients with confidence.

Bio: Chance Shiflett is a technology leader helping prosecutors, defense attorneys, and investigators use AI for faster, fairer decisions. At Rev, Chance builds practical solutions that ease heavy caseloads, surface key evidence, and streamline workflows. Collaborating across the justice system, his mission is to deliver reliable tools that uphold truth, accuracy, and public trust, empowering legal professionals to better serve their communities.
