Presentation: Screenshots Are Not Reliable

Presenter: Mario Merendon

Date: Tuesday, April 14, 2026

Time: 12:30 pm – 1:30 pm

CLE: 0, 0 ethics

Overview: Join us with Mario Merendon as he explains why screenshots are unreliable and where you can find evidence to determine whether they are authentic or not. We will have a short presentation and then allow time for Q & A.

Bio: Mario Merendon is a highly experienced Digital Forensic Expert with over 19 years of law enforcement experience including lead criminal investigator roles and managing the Denton County District Attorney's Digital Forensic lab in North Texas. He is the Training Chair for Mobile Device Forensics for an international digital forensic training organization (IACIS) and owner of VX Digital Defense. He holds several certifications in digital forensics, a Master's in Information Assurance and Cyber Security and actively works as an expert across the state.
